

Acumatica Construction Edition for Home Builders

KEY FEATURES

Financial Management

Powerful financials that are simple enough for smaller contractors and scalable for more complex contractor needs. Acumatica Financial Management has standard financial processes (GL/AP/AR) and reports plus multicompany, multi-currency and intercompany accounting, fixed assets, recurring and deferred revenue, and cash management.

Job Cost Accounting

Easily manage AP workflows, from entering an invoice, through approval routing and cutting checks. Seamless customer billing, driven by real-time project costing, including up-to-date costs on labor, material, equipment, and more. This detailed job cost information will help you proactively identify problem areas in current jobs and provide you with information to accurately estimate future projects.

Project Management

Gain a complete view of your project details — including real-time field updates, providing instantaneous information flow between your project management team, your back-office workforce, and management. Easily manage and track all activities, issues, changes, project documents, and job costs from one central area.

Payroll

Flexible payroll adapts to any construction organization. This solution supports multiple unions, locals,

classes, benefit packages, and complex wages, as well as certified wages, executive compensation, and commission structures.

Commitments

Control cost over-runs by automating your project commitments and change order processes. Easily create and track the status of your subcontracts and purchase orders, including comparing budgets to actuals, tracking line-item committed costs, and up-to-date vendor payment status.

Compliance

Effectively manage lien waivers and releases, insurance certificates and status updates, providing expiration and other alerts to staff and suppliers.

Customer Relationship Management

Easily see real-time data on all customer activities, including customer quotes, orders, invoices, payments, support cases and service calls. Acumatica CRM also includes a self-service customer portal that lets customers access the information they need.

Mobile App

Get anytime, anywhere access. Quickly see key reports on phones and tablets and give field teams and subcontractors tools to enter employee and equipment time electronically. Access the complete system over any device, and search for all project details from one global search box.

ABOUT IBS

IBS helps developers turn data into useful information — providing “anytime, anywhere” visibility that enables effective strategy. We can help you become more efficient, improving operations and profitability. IBS is an award-winning value added reseller for Acumatica. We help real estate contractors, developers and owner/operators leverage Acumatica to better manage your business. We have 40 years of experience deploying technology for developers of commercial real estate.
